SKILLS

Front-End Development: JavaScript, TypeScript, React.js, HTML, CSS, Sass

Back-End Development: Node.js, Express.js, REST APIs, MySQL, Knex.js

Development & DevOps Tools: Git, GitHub, Postman, Gulp, Heroku, Netlify, VS Code, Vite

EXPERIENCE

JavaScript Developer (Contract) | Pepperi

SEP 2022 - NOV 2022, KYIV, UKRAINE

- Developed **JavaScript** workflows for large datasets, ensuring efficient retrieval and processing of thousands of records daily.
- Processed and displayed **API** data, delivering accurate front-end presentation for clients like Caesarstone and Dermalogica.
- Customized UI behaviour, adapting Pepperi's platform to meet business needs and improve UX for global brands.
- Collaborated with a 16-person dev team, working closely with 2 PMs to refine functionality based on project requirements.

Front-End Developer | Kika Web Design Studio

OCT 2021 - APR 2022, KYIV, UKRAINE

- Built the front end from scratch with **HTML, CSS (Sass), and JavaScript**, translating designer mockups into user interfaces.
- Integrated UI with a custom WordPress backend, ensuring design consistency and seamless functionality.
- Worked in a highly collaborative 5-person team, responding to evolving requirements and ensuring smooth implementation.
- Delivered front-end solutions for multiple customer projects, balancing deadlines and adapting to various UI/UX needs.

PROJECTS

Lead Coder, Full Stack Developer | InstaClone

NOV 2024, BRAINSTATION CAPSTONE

- Created a full-stack social media platform using **React.js, Node.js, Express, MySQL, and Knex.js**.
- Crafted a responsive UI with React Router and Hooks, enabling smooth state handling and intuitive navigation.
- Optimized React components and layout structures for performance, responsiveness, and cross-device UX.
- Connected frontend to a **RESTful API** and provided **JWT**-based authentication for dynamic content and session protection.

Front-End Developer | Kika

OCT 2021, KIKA WEB DESIGN STUDIO

- Engineered the front-end architecture for the company's website using **HTML, CSS (Sass), and JavaScript**.
- Programmed custom JavaScript animations, enhancing user engagement and improving visual appeal.
- Utilized **Gulp** to automate tasks, optimizing CSS and JavaScript files for better performance and maintainability.

Front-End Developer | Crypto Consult Group

DEC 2021, KIKA WEB DESIGN STUDIO

- Constructed the front-end architecture using **HTML, CSS (Sass), and JavaScript**, delivering a clean and professional UI.
- Implemented structured layouts and interactive elements, ensuring a seamless and engaging user experience.
- Leveraged **Gulp** for task automation, optimizing build processes and streamlining CSS/JavaScript compilation.

EDUCATION

BrainStation | Diploma, Software Engineer

SEP 2024 - DEC 2024, NEW YORK, NY

Beetroot Academy | Certificate, Front-End Development

SEP 2020 - MAR 2021, KYIV, UKRAINE

Taras Shevchenko National University of Kyiv | Bachelor's in Computer Linguistics

SEP 2015 - JUN 2019, KYIV, UKRAINE
